Manager's 2nd Quarter Report

Flushing of the system has been completed.

The taste and odor problem due to the warm weather/algae bloom has been corrected by the City of Everett. Thank you for your patience during this time. We are fortunate to have very good tasting/smelling water ninety nine percent of the time.

Utility Services came out and surveyed $\frac{1}{4}$ of our System and we found two small leaks. Our lost/unaccountable water for 2014 was at 4.1% which is very good. Our goal was less than 10%.

With half our year in the books we are \$4,500.00 under budget. We have had a couple of line breaks and still stayed within our budget.

The 2014 Consumer Confidence Report is on our website, if anyone would like a copy mailed to them please contact us.

We will keep you updated on the website as to any conservation measures due to the lack of rainfall.

If you have any questions or concerns please call.

Thank you,
Janelle MacDicken
Manager
